

Gyana Ranjan Rout, Full Stack Developer

Brahmapur, Odisha, IN | +91 8926059192 | gyanaranjanrouta@gmail.com

PROFILE	I am a Computer Science and Engineering student with a strong interest in Full Stack Web Development. I have experience working with modern web technologies and enjoy building responsive and user-friendly applications. I am passionate about learning new technologies, solving problems, and continuously improving my technical skills. I am seeking opportunities to apply my knowledge and grow as a software developer.			
SKILLS	Frontend Development	Experienced	Version Control	Experienced
	Backend Development	Skillful	Problem-Solving & Debugging	Skillful
	Database Management	Skillful		
EDUCATION	Bachelor of Technology (B.Tech) in Computer Science & Engineering <i>Brahmapur, Odisha</i> NIST University <i>Jul 2025 — May 2029</i> Pursuing a degree with a focus on programming, software development, web technologies and databases. Achieved an SGPA of 9.55/10 and continuously building technical skills through projects, hackathons, and hands-on development experience.			
PROJECTS	Mind Map A web-based mind mapping application that helps users organize ideas, plan projects, and visualize concepts through interactive nodes and connections. Features include drag-and-drop editing, real-time updates, and data persistence for seamless brainstorming. Classmate App A student collaboration platform designed to help classmates share notes, manage assignments, track schedules, and communicate efficiently. Improves academic productivity through centralized resource management and real-time collaboration. SmartTools Web An all-in-one productivity platform offering online tools such as text utilities, converters, calculators, and developer tools. Built to provide a fast, user-friendly experience for students, professionals, and developers. Rescue Website An AI-powered disaster response and resource allocation platform designed to help communities during emergencies such as floods, cyclones, and earthquakes. Users can report incidents, locate nearby hospitals and shelters, receive emergency alerts, and access critical resources in real time.
